On May 8, 2019, we effected a one-for-ten reverse stock split (the "Reverse Stock Split") of our issued and outstanding and authorized Common Stock. All per share amounts and numbers of shares of Common Stock in this prospectus supplement reflect the Reverse Stock Split. The Reverse Stock Split does not affect our authorized preferred stock of 5,000,000 shares; except that, pursuant to the terms of the Certificate of Designations of Series B Convertible Preferred Stock for the issued and outstanding shares of our Series B Convertible Preferred Stock, par value \$0.001 per share (the "Series B Preferred Stock"), the conversion price at which shares of Series B Preferred Stock may be converted into shares of Common Stock will be proportionately adjusted to reflect the Reverse Stock Split.

### **Our Business**

#### **Background**

We are a clinical stage, biopharmaceutical company focused on the development and commercialization of new cancer therapies. Our mission is to benefit patients by developing and commercializing anti-cancer therapies for patients whose tumors exhibit features that make them resistant to, or unlikely to respond to, currently available therapies, particularly for orphan cancer indications where patients have failed, or are unlikely to respond to, currently available therapy.

As of March 31, 2019, we have spent approximately \$38.8 million of shareholder capital in developing VAL-083, a novel, validated, DNA-targeting agent, for the treatment of drug-resistant solid tumors such as glioblastoma multiforme ("GBM") and potentially other solid tumors, including ovarian cancer, non-small cell lung cancer ("NSCLC"), and diffuse intrinsic pontine glioma ("DIPG"). VAL-083 is a first-in-class, small-molecule, DNA-targeting chemotherapeutic that demonstrated activity against a range of tumor types in prior Phase 1 and Phase 2 clinical studies sponsored by the US National Cancer Institute ("NCI"). As part of our business strategy, we leverage and build upon these prior NCI investments and data from more than 40 NCI- Phase 1 and Phase 2 clinical studies, which includes an estimated 1,000 patient safety database, with our own research to identify and target unmet medical needs in modern cancer care. DNA-targeting agents are among the most successful and widely used treatments for cancer. Their efficacy is based on the ability to bind with a cancer cell's DNA and interfere with the process of protein production required for growth and survival of cancer cells. "First-in-class" means that VAL-083 embodies a unique molecular structure which is not an analogue or derivative of any approved product, or product under development, for the treatment of cancer.

Our recent research has highlighted the opportunities afforded by VAL-083's unique mechanism of action and its potential to address unmet medical needs by focusing our development efforts on patients whose tumors exhibit biological features that make them resistant to, or unlikely to respond to, currently available therapies. For example, our research demonstrating VAL-083's activity in GBM independent of the O6-methyl guanine methyltransferase ("MGMT") methylation status allows us to focus patient selection based on this important biomarker.

We are conducting two open-label, biomarker driven Phase 2 studies in MGMT-unmethylated GBM. MGMT is a DNA-repair enzyme that is associated with resistance to temozolomide, the current standard-of-care chemotherapy used in the treatment of GBM. Greater than 60% of GBM patients have MGMT-unmethylated tumors and exhibit a high expression of MGMT, which is correlated with temozolomide treatment failure and poor patient outcomes. Our research demonstrates that VAL-083's anti-tumor activity is independent of MGMT expression. In our Phase 2 studies we are using MGMT as a biomarker to identify patients for treatment with VAL-083 in the newly-diagnosed, maintenance-stage (adjuvant) and recurrent treatment settings. If successful, the result of these studies could position VAL-083 for advancement to pivotal clinical studies as a potential replacement for temozolomide in MGMT-unmethylated GBM. We anticipate presenting data from these studies at peer reviewed scientific meetings during calendar 2019.

With respect to our STAR-3, Phase 3 study, we have finalized the decision to discontinue this clinical study due to the competitive landscape, patient enrollment rates, and potential risk of success assessment, and to allow us to focus on enrolling GBM patients in our two biomarker-driven Phase 2 studies.

We have received notice to proceed from the US Food and Drug Administration (“FDA”) for a phase 1/2, open-label, multicenter study of VAL-083 in patients with **Recurrent Platinum Resistant Ovarian Cancer** (“REPROVe”). Platinum-based chemotherapy is the standard-of-care in the treatment of ovarian cancer. Nearly all ovarian cancer patients eventually become resistant to platinum (“Pt”) based chemotherapy leading to treatment failure and poor patient outcomes. We have demonstrated that VAL-083 is active against Pt-resistant ovarian cancer *in vitro*. However, based on ongoing evaluation and input from our ovarian cancer advisory board, we are reassessing the development of VAL-083 for the treatment of ovarian cancer. We are in the process of evaluating the best path forward in ovarian cancer and are evaluating strategic options, including the potential combination of VAL-083 with PARP inhibitors. At the American Association for Cancer Research (“AACR”) Annual Meeting in 2018 we presented preclinical data showing that VAL-083 can synergize PARP inhibitors in both a BRACA-proficient and -deficient setting.

In addition to our clinical development activities in the United States, pursuant to our collaboration with Guangxi Wuzhou Pharmaceutical (Group) Co. Ltd. (“Guangxi Wuzhou Pharmaceutical Company”), we have provided Guangxi Wuzhou Pharmaceutical Company certain commercial rights to VAL-083 in China where it is approved as a chemotherapy for the treatment of chronic myelogenous leukemia (“CML”) and lung cancer. Guangxi Wuzhou Pharmaceutical Company is the only manufacturer presently licensed by the China Food and Drug Administration (“CFDA”) to produce the product for the China market.

We have a broad patent portfolio to protect our intellectual property. Our patent applications claim composition of matter and methods of use of VAL-083 and related compounds, synthetic methods, and quality controls for the manufacturing process of VAL-083. We believe that our portfolio of intellectual property rights provides a defensible market position for the commercialization of VAL-083. In addition, VAL-083 has been granted protection under the Orphan Drug Act by the FDA and the European Medicines Agency (“EMA”) for the treatment of gliomas, including GBM. The FDA has also granted Orphan Drug protection to VAL-083 for the treatment of medulloblastoma and ovarian cancer.

Our corporate development strategy is to advance our drug candidate into multiple clinical studies and then to consider licensing, or acquiring additional product candidates, in order to establish a product pipeline and to position us for long-term sustainability and growth of shareholder value. We believe the experience of our clinical development team will position us to efficiently develop drug candidates that we may acquire, or license, in the future.

We intend to continue to evaluate options for our strategic direction. These options may include raising additional capital, the acquisition of another company and/or complementary assets, our sale, or another type of strategic partnership.

## RISK FACTORS

*Investing in our securities involves a high degree of risk. Before deciding whether to invest in our securities, you should carefully consider the risk factors we describe in this prospectus supplement and in any related free writing prospectus that we may authorize to be provided to you or in any report incorporated by reference into this prospectus supplement, including our Annual Report on Form 10-K for the year ended June 30, 2018, or any Annual Report on Form 10-K or Quarterly Report on Form 10-Q that is incorporated by reference into this prospectus supplement after the date of this prospectus supplement. Although we discuss key risks in those risk factor descriptions, additional risks not currently known to us or that we currently deem immaterial also may impair our business. Our subsequent filings with the SEC may contain amended and updated discussions of significant risks. We cannot predict future risks or estimate the extent to which they may affect our financial performance.*

### **Risks Related to This Offering**

***Management will have broad discretion as to the use of the proceeds from this offering, and we may not use the proceeds effectively.***

Our management will have broad discretion in the application of the net proceeds from this offering and could spend the proceeds in ways that do not improve our results of operations or enhance the value of our Common Stock. Our failure to apply these funds effectively could have a material adverse effect on our business and cause the price of our Common Stock to decline.

***You will experience immediate and substantial dilution in the net tangible book value per share of the Common Stock you purchase.***

Since the price per share of our Common Stock being offered is substantially higher than the net tangible book value per share of our Common Stock, you will suffer immediate and substantial dilution in the net tangible book value of the Common Stock you purchase in this offering. Based on a public offering price of \$3.10 per share, if you purchase shares of Common Stock in this offering, you will suffer immediate and substantial dilution of \$1.93 per share with respect to the net tangible book value of the Common Stock. See the section entitled “Dilution” below for a more detailed discussion of the dilution you will incur if you purchase Common Stock in this offering.

***You may experience future dilution as a result of future equity offerings and other issuances of our Common Stock or other securities. In addition, this offering and future equity offerings and other issuances of our Common Stock or other securities may adversely affect our Common Stock price.***

In order to raise additional capital, we may in the future offer additional shares of our Common Stock or other securities convertible into or exchangeable for our Common Stock at prices that may not be the same as the price per share in this offering. We may not be able to sell shares or other securities in any other offering at a price per share that is equal to or greater than the price per share paid by investors in this offering, and investors purchasing shares or other securities in the future could have rights superior to existing stockholders. The price per share at which we sell additional shares of our Common Stock or securities convertible into Common Stock in future transactions may be higher or lower than the price per share in this offering. In addition, we are issuing warrants to purchase 760,500 shares of Common Stock in a concurrent private placement. You will incur dilution upon exercise of any outstanding stock options, warrants or upon the issuance of shares of Common Stock under our stock incentive programs. In addition, the sale of shares in this offering and any future sales of a substantial number of shares of our Common Stock in the public market, or the perception that such sales may occur, could adversely affect the price of our Common Stock. We cannot predict the effect, if any, that market sales of those shares of Common Stock or the availability of those shares of Common Stock for sale will have on the market price of our Common Stock.

## SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus and the information incorporated by reference herein and therein contain “forward-looking statements,” which include information relating to future events, future financial performance, strategies, expectations, competitive environment and regulation. Words such as “may,” “should,” “could,” “would,” “predicts,” “potential,” “continue,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates,” and similar expressions, as well as statements in future tense, identify forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will probably not be accurate indications of when such performance or results will be achieved. Forward-looking statements are based on information we have when those statements are made or our management’s good faith belief as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Examples of our forward-looking statements include:

- our ability to raise funds for general corporate purposes and operations, including our research activities and clinical trials;
- our ability to recruit qualified management and technical personnel;
- the success of our clinical trials;
- our ability to expand our international business;
- our ability to obtain and maintain required regulatory approvals for our products;
- our expectations regarding the use of our existing cash and the expected net proceeds of this offering;
- our ability to obtain or maintain patents or other appropriate protection for the intellectual property utilized in our current and planned products; and
- the other factors discussed in the “Risk Factors” section and elsewhere in this prospectus supplement.

Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified and some of which are beyond our control, you should not rely on these forward-looking statements as predictions of future events. The events and circumstances reflected in our forward-looking statements may not be achieved or occur and actual results could differ materially from those projected in the forward-looking statements. Moreover, we operate in an evolving environment. New risk factors and uncertainties may emerge from time to time, and it is not possible for management to predict all risk factors and uncertainties. Except as required by applicable law, we do not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances or otherwise.

This prospectus supplement and the accompanying prospectus and the documents incorporated herein by reference also refer to estimates and other statistical data made by independent parties and by us relating to market size and growth and other data about our industry. This data involves a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates. In addition, projections, assumptions and estimates of our future performance and the future performance of the markets in which we operate are necessarily subject to a high degree of uncertainty and risk.

## USE OF PROCEEDS

Based upon the public offering price of \$3.10 per share of Common Stock, we estimate that the net proceeds from the sale of the securities offered under this prospectus supplement, after deducting placement agents' fees and commissions and estimated offering expenses payable by us will be approximately \$3.2 million.

We intend to use the net proceeds from this offering for our clinical trials and for general corporate purposes, which may include working capital, capital expenditures, research and development and other commercial expenditures. In addition, we may use the net proceeds from this offering for investments in businesses, products or technologies that are complementary to our business, although we have no present commitments or agreements to make any such investments as of the date of this prospectus supplement. We expect to use any proceeds we receive from the exercise of Warrants for substantially the same purposes and in substantially the same manner. Pending these uses, we intend to invest the funds in short-term, investment grade, interest-bearing securities. It is possible that, pending their use, we may invest the net proceeds in a way that does not yield a favorable, or any, return for us. We expect that we will have to raise such additional funds through the sale of additional equity or equity backed securities. Any future equity or equity linked financing that we may need may not be able available on terms favorable to us or at all.

Our management will have broad discretion as to the allocation of the net proceeds from this offering and could use them for purposes other than those contemplated at the time of commencement of this offering.

Until we use the net proceeds of this offering, we will invest the funds in short-term, investment grade, interest-bearing securities.

## **DIVIDEND POLICY**

We have never declared or paid cash dividends on our common stock. The holders of the Series A Preferred Stock are entitled to cumulative dividends at the rate of 3% of the stated value of the Series A Preferred Stock per year, payable quarterly in arrears. The holders of the Series B Preferred Stock are entitled to, pari passu with the Series A Preferred Stock, cumulative dividends at an annual rate of 9% of the stated value of the Series B Preferred Stock and any dividends declared and paid on the common stock on an as-converted basis. Dividends on the Series B Preferred Stock shall be payable solely in shares of common stock, in an amount for each holder equal to the aggregate dividend payable to such holder with respect to the shares of Series B Preferred Stock held by such holder as of the dividend payment date, divided by the applicable conversion price as of the dividend payment date.

Except as set forth above, we currently intend to retain our future earnings, if any, for use in our business and therefore do not anticipate paying cash dividends on our common stock in the foreseeable future. Payment of future dividends, if any, will be at the discretion of our board of directors after taking into account various factors, including our financial condition, operating results, and current and anticipated cash needs.

## DILUTION

Purchasers of shares of our Common Stock in this offering will experience an immediate dilution of the net tangible book value per share of our common stock. Our net tangible book value as of March 31, 2019 was approximately \$1,244,298, or \$0.47 per share of our common stock (based upon 2,620,033 shares of our common stock on an as-exchanged basis with respect to the shares of Exchangeco that can be exchanged for shares of common stock of the Company and taking into account the one-for-ten reverse stock split effective on May 8, 2019). Net tangible book value per share is equal to our total tangible assets less our total liabilities, divided by the number of shares of our outstanding common stock.

Dilution per share of common stock equals the difference between the amount paid by purchasers of Common Stock in this offering (ascribing no value to the Warrants issued in the concurrent private placement) and the net tangible book value per share of our common stock immediately after this offering.

Based on the sale by us in this offering of 1,170,000 shares of Common Stock at the public offering price of \$3.10 per share (assuming no exercise of the Warrants issued in the concurrent private placement), taking into account the one-for-ten reverse stock split of our common stock effective on May 8, 2019, and after deducting estimated offering expenses and placement agent fees and expenses payable by us, our pro forma net tangible book value as of March 31, 2019 would have been approximately \$4.4 million, or \$1.17 per share of our common stock. This represents an immediate increase in pro forma net tangible book value to existing stockholders of \$0.70 per share of our common stock and an immediate dilution to purchasers in this offering of \$1.93 per share of our common stock.

The following table illustrates this per-share of our common stock dilution:

Public offering price per share of common stock	\$	3.10
Net tangible book value per share as of March 31, 2019	\$	0.47
Increase in net tangible book value per share attributable to this offering	\$	0.70
Pro forma net tangible book value per share as of March 31, 2019 after giving effect to this offering	\$	1.17
Dilution per share to the new investors in this offering	\$	1.93

The information above is as of March 31, 2019 and excludes:

- 292,683 shares of our common stock issuable upon the exercise of stock options, with a weighted-average exercise price of \$22.40 per share;
- 120,000 shares of our common stock issuable upon the settlement of outstanding performance stock units, which units were cancelled effective as of April 30, 2019;
- 862,503 shares of our common stock issuable upon the exercise of outstanding warrants, with a weighted-average exercise price of \$24.80 per share; and
- 367,317 other shares of our common stock reserved for future issuance under our 2017 Omnibus Equity Incentive Plan, which was decreased to 14,217 effective as of April 30, 2019.

## PRIVATE PLACEMENT TRANSACTION

In a concurrent private placement, or the Private Placement Transaction, we are selling to purchasers of our Common Stock in this offering the Purchase Warrants to purchase an aggregate of 760,500 shares of our Common Stock.

The Purchase Warrants and the shares of our Common Stock issuable upon the exercise of the Purchase Warrants are not being registered under the Securities Act, are not being offered pursuant to this prospectus supplement and the accompanying prospectus and are being offered pursuant to the exemption provided in Section 4(a)(2) under the Securities Act and Rule 506(b) promulgated thereunder. Accordingly, purchasers may only sell shares of Common Stock issued upon exercise of the Purchase Warrants pursuant to an effective registration statement under the Securities Act covering the resale of those shares, an exemption under Rule 144 under the Securities Act or another applicable exemption under the Securities Act.

*Exercisability.* The Purchase Warrants are exercisable on the date of issuance, and at any time thereafter up to five years from the initial exercise date, at which time any unexercised Purchase Warrants will expire and cease to be exercisable. The Purchase Warrants will be exercisable, at the option of each holder, in whole or in part by delivering to us a duly executed exercise notice and, at any time a registration statement registering the issuance of the shares of Common Stock underlying the Purchase Warrants under the Securities Act is effective and available for the issuance of such shares, or an exemption from registration under the Securities Act is available for the issuance of such shares, by payment in full in immediately available funds for the number of shares of Common Stock purchased upon such exercise. If a registration statement registering the issuance of the shares of Common Stock underlying the Purchase Warrants under the Securities Act is not effective or available and an exemption from registration under the Securities Act is not available for the issuance of such shares, the holder may, in its sole discretion, elect to exercise the Purchase Warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of shares of Common Stock determined according to the formula set forth in the Purchase Warrant. No fractional shares of Common Stock will be issued in connection with the exercise of a Purchase Warrant. In lieu of fractional shares, we will pay the holder an amount in cash equal to the fractional amount multiplied by the exercise price.

*Exercise Limitation.* A holder will not have the right to exercise any portion of the warrant if the holder (together with its affiliates) would beneficially own in excess of 4.99% (or, upon election of the holder, 9.99%) of the number of shares of our Common Stock outstanding immediately after giving effect to the exercise, as such percentage ownership is determined in accordance with the terms of the Purchase Warrants. However, any holder may increase or decrease such percentage, provided that any increase will not be effective until the 61st day after such election.

*Exercise Price.* The Purchase Warrants will have an exercise price of \$3.10 per share. The exercise price is subject to appropriate adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our Common Stock and also upon any distributions of assets, including cash, stock or other property to our stockholders. In addition, if, on or prior to June 28, 2019, we sell or grant any option to purchase or sell or grant any right to repurchase, or otherwise dispose of or issue, any Common Stock or securities convertible into or exercisable for Common Stock at an effective price per share that is lower than the exercise price of the warrants then in effect, then the exercise price of the warrants will be reduced to equal the higher of (A) such lower price or (B) \$2.25, subject to certain exceptions.

*Transferability.* Subject to applicable laws, the Purchase Warrants may be offered for sale, sold, transferred or assigned without our consent.

*Exchange Listing.* There is no established trading market for the Purchase Warrants and we do not expect a market to develop. In addition, we do not intend to apply for the listing of the Purchase Warrants on any national securities exchange or other trading market. Without an active trading market, the liquidity of the Purchase Warrants will be limited.

*Fundamental Transactions.* If a fundamental transaction occurs, then the successor entity will succeed to, and be substituted for us, and may exercise every right and power that we may exercise and will assume all of our obligations under the Purchase Warrants with the same effect as if such successor entity had been named in the Purchase Warrant itself. If holders of our Common Stock are given a choice as to the securities, cash or property to be received in a fundamental transaction, then the holder shall be given the same choice as to the consideration it receives upon any exercise of the Purchase Warrant following such fundamental transaction.

*Rights as a Stockholder.* Except as otherwise provided in the Purchase Warrants or by virtue of such holder's ownership of shares of our Common Stock, the holder of a Purchase Warrant does not have the rights or privileges of a holder of our Common Stock, including any voting rights, until the holder exercises the Purchase Warrant.

*Resale/Registration Rights.* We are required within 30 days of the offering to file a registration statement providing for the resale of the shares of Common Stock issued and issuable upon the exercise of the Purchase Warrants. We are required to use commercially reasonable efforts to cause such registration to become effective within 181 days of the date of issuance, subject to certain exceptions, and to keep such registration statement effective at all times until no investor owns any Purchase Warrants or shares issuable upon exercise thereof.

### Sale Through Underwriters or Dealers

Only underwriters named in the prospectus supplement are underwriters of the securities offered by the prospectus supplement.

If underwriters are used in the sale, the underwriters will acquire the securities for their own account, including through underwriting, purchase, security lending or repurchase agreements with us. The underwriters may resell the securities from time to time in one or more transactions, including negotiated transactions. Underwriters may sell the securities in order to facilitate transactions in any of our other securities (described in this prospectus or otherwise), including other public or private transactions and short sales. Underwriters may offer securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Unless otherwise indicated in the prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to certain conditions, and the underwriters will be obligated to purchase all the offered securities if they purchase any of them. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers.

They may then resell those securities to the public at varying prices determined by the dealers at the time of resale. The prospectus supplement will include the names of the dealers and the terms of the transaction.

### Direct Sales and Sales Through Agents

We may sell the securities offered through this prospectus directly. In this case, no underwriters or agents would be involved. Such securities may also be sold through agents designated from time to time. The prospectus supplement will name any agent involved in the offer or sale of the offered securities and will describe any commissions payable to the agent. Unless otherwise indicated in the prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment.

We may sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities. The terms of any such sales will be described in the prospectus supplement.

#### **Delayed Delivery Contracts**

If the prospectus supplement indicates, we may authorize agents, underwriters or dealers to solicit offers from certain types of institutions to purchase securities at the public offering price under delayed delivery contracts. The applicable prospectus supplement will describe the commission payable for solicitation of those contracts.

#### **Continuous Offering Program**

Without limiting the generality of the foregoing, we may enter into a continuous offering program equity distribution agreement with a broker-dealer, under which we may offer and sell shares of our common stock from time to time through a broker-dealer as our sales agent. Under the terms of such a program, we also may sell shares of common stock to the broker-dealer, as principal for its own account at a price agreed upon at the time of sale. If we sell shares of common stock to such broker-dealer as principal, we will enter into a separate terms agreement with such broker-dealer, and we will describe this agreement in a separate prospectus supplement or pricing supplement.

#### **Market Making, Stabilization and Other Transactions**

Unless the applicable prospectus supplement states otherwise, other than our common stock all securities we offer under this prospectus will be a new issue and will have no established trading market. We may elect to list offered securities on an exchange or in the over-the-counter market. Any underwriters that we use in the sale of offered securities may make a market in such securities, but may discontinue such market making at any time without notice. Therefore, we cannot assure you that the securities will have a liquid trading market.

Any underwriter may also engage in stabilizing transactions, syndicate covering transactions and penalty bids in accordance with Rule 104 under the Securities Exchange Act. Stabilizing transactions involve bids to purchase the underlying security in the open market for the purpose of pegging, fixing or maintaining the price of the securities. Syndicate covering transactions involve purchases of the securities in the open market after the distribution has been completed in order to cover syndicate short positions.

Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the securities originally sold by the syndicate member are purchased in a syndicate covering transaction to cover syndicate short positions. Stabilizing transactions, syndicate covering transactions and penalty bids may cause the price of the securities to be higher than it would be in the absence of the transactions. The underwriters may, if they commence these transactions, discontinue them at any time.
